FFATA Grants Reporting - Data Model
Step 1: Instructions for FFATA Sub-award Reporting

PRIME GRANT RECIPIENTS awarded a new Federal grant greater than or equal to $25,000 as of October 1, 2010 are subject to FFATA sub-award reporting requirements as outlined in the Office of Management and Budget's guidance issued August 27, 2010. The prime awardee is required to file a FFATA sub-award report by the end of the month following the month in which the prime recipient awards any sub-grant greater than or equal to $25,000.

Note - Please be aware that all information collected on the FSRS website (www.fsrs.gov), including registration information and report data, will be visible to the public on a public website (www.usaspending.gov).

FIELD: Copy Existing report

Field Notes: If a user has previously submitted a FFATA report for a grant, they will be able to copy the report as the basis of a new report for that same grant (for another reporting period). First term indicates whether the report is for contract or grant. Pull-down bar lists any available reports for copying. If none are listed, then the user does not have any reports that can be copied.

Step 2: Enter Contract / Award #

Step Note: If you are unable to find or report against a prime award that should be available through FSRS.gov, Prime Contract Awardees please take the following action:

Contact your grant making official for help. In order for you to file a FFATA sub-award report against your grant, your Federal grant making official must report your prime grant award information through their FAADS+ file submission to USAspending. The Agency's FAADS+ submission is the authoritative source for the basic grant award information used to pre-populate many of the prime award details in your FFATA report. For more information on the FAADS+ format, please read OMB M-09-19.
